

# COMPATIBILITY CHART

The following bottles have been successfully tested for compatibility with the Pet Top® portable drinking COMBO devices for pets. There may be other compatible bottles, as the Pet Top® portable drinking device for pets is designed to fit the most common bottle neck size. As we find more compatible bottles they'll be added here.

**Tip:** To maintain a tight seal, avoid over tightening the Pet Top® device onto bottle.

**Tip 2:** The standard bottle neck looks like the Pepsi® bottle neck--so if you choose a water bottle that has a similar-sized cap, that should be compatible.

**Please Note:** In some regions some bottles of Dasani® water are now offered in more than one type of bottle neck--please choose the one that looks like the Pepsi® bottle neck.

Bottled Brand	Bottle Size	Notes
Adirondack	24 fl oz	
Aquafina	16.9 fl oz	individual bottles, not from bulk cases (12-pack or 24-pack)
